

Columbus FAASTeam presents:

Compliance Philosophy

This meeting will address the FAA's new "Compliance Philosophy."

To promote the highest level of safety and compliance with regulatory standards, The FAA is implementing Safety Management System constructs based on comprehensive safety data sharing between the FAA and the aviation community. To foster this open and transparent exchange of data, the FAA believes that it's compliance philosophy, supported by an established safety culture, is instrumental in ensuring both compliance with regulations and the identification of hazards and management risk.

Come out and see how this new philosophy will affect the aviation community.

Directions: Lane Aviation is located on the right side as you drive toward the terminal on International Gateway. Turn right into Lane Aviation entrance, bear to right of flag pole, enter building with maroon awning (4387) over the door, up the stairs to second floor, room on the left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
